DATASHEET P-802CI

IN-PRESS P-802CI

Process Pressure Controller, Industrial Style

Process Pressure Controller, Industrial Style

Bronkhorst[®] model P-802CI Process Pressure Controllers (PPCs) are suited for precise pressure control with closed volumes, i.e. with one fluid connection. This PPC model is suited for pressure ranges between 17,5...350 mbar and 3,2...64 bar absolute or gauge. The instrument comprises a diaphragm type piezo-resistive pressure sensor, a microprocessor based pc-board with signal and fieldbus conversion and a PID controller for pressure control by means of two integrated control valves. This dual valve construction is a compact, economical alternative to configurations where forward pressure controllers are combined with separate bleed ports and relief valves. It is considered as a great advantage that the relief valve does not vent to the atmosphere. Furthermore the system can be set for either fast or smooth controlled (de)pressurization. The IN-PRESS model is of rugged design (IP65) for use in industrial environments.

IN-PRESS series are equipped with a digital pc-board, offering high accuracy, excellent temperature stability and fast response. The main digital pcboard contains all of the general functions needed for measurement and control. In addition to the standard RS232 output the instruments also offer analog I/O. As an option, an on-board interface can be mounted to provide CANopen[®], DeviceNet[™], EtherCAT[®], PROFIBUS DP, PROFINET, Modbus RTU, ASCII or TCP/IP, EtherNet/IP, POWERLINK or FLOW-BUS protocols.

Technical specifications

Measurement / control system

Pressure ranges	min. 17,5 350 mbar max. 3,2 64 bar	
Accuracy (incl. linearity and hysteresis)	± 0,5 % FS	
Repeatability	< 0,25 % RD	
Pressure rangeability	1:20 (with flow range 1:50)	
Response time (sensor)	2 msec	
Operating temperature	-10 +70 °C	
Temperature sensitivity	0,1% FS/°C	
Leak integrity, outboard	tested < 2 x 10 ⁻⁹ mbar I/s He	
Attitude sensitivity	max. error at 90° off horizontal < 0,3 mbar	
Warm-up time	negligible	

Mechanical parts

Material (wetted parts)	stainless steel 316L or comparable		
Process connections	compression type or face seal (VCR/VCO) couplings		

Mechanical parts

Seals	standard: FKM/Viton [®] ; options: EPDM, FFKM/Kalrez [®] , FDA and USP Class VI approved compounds	
Weight	2,8 kg	
Ingress protection	IP65	

Electrical properties

Power supply	+15 24 Vdc				
Max. power consumption	Supply	at voltage I/O	at current I/O	extra for fieldbus	
	15 V	290 mA	320 mA	<75 mA	
	24 V	200 mA	215 mA	<50 mA	
PROFIBUS DP	add 53 mA (15 V supply) or 30 mA (24 V supply)				
CANopen [®] / DeviceNet™	add 48 mA (24 V supply)				
Analog output	05 (10) V	05 (10) Vdc or 0 (4)20 mA (sourcing output)			
Digital communication	options: CA	standard: RS232; options: CANopen®, DeviceNet™, EtherCAT®, PROFIBUS DP, PROFINET, Modbus RTU, ASCII or TCP/IP, EtherNet/IP, POWERLINK or FLOW-BUS			

Electrical connection

Analog/RS232	8 DIN (male);	
PROFIBUS DP	bus: 5-pin M12 (female); power: 8 DIN (male);	
CANopen [®] / DeviceNet™	5-pin M12-connector (male);	
FLOW-BUS/Modbus-RTU/ASCII	5-pin M12 (male)	
Modbus TCP / EtherNet/IP / POWERLINK	bus: 2 x 5-pin M12 (female) (in/out); power: 8 DIN (male);	
EtherCAT®/ PROFINET	bus: 2 x 5-pin M12 (female) (in/out); power: 8 DIN (male)	

Control valve options

External actuator options to be connected to the controller

Ex-proof specifications

Approvals / certificates

Technical specifications subject to change without notice.

Note: The measuring cell of the pressure sensor is separated from the external pressure by a thin, sensitive stainless steel diaphragm, and the sealed off cavity between diaphragm and cell is filled with oil. Since the standard oil filling is flammable, Bronkhorst advises to take precautions when oxygen or any other explosive fluid is used.

Bronkhorst High-Tech designs and manufactures innovative instruments and subsystems for low-flow measurement and control for use in laboratories, machinery and industry. Driven by a strong sense of sustainability and with many years of experience, we offer an extensive range of (mass) flow meters and controllers for gases and liquids, based on thermal, Coriolis and ultrasonic measuring principles. Our global sales and service network provides local support in more than 40 countries. Discover Bronkhorst[®]!
