

Manufacturer Declaration REACH

LOW FLOW FLUIDICS HANDLING TECHNOLOGY

Declaration regarding the (EC) Regulation No. 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Position on REACH Regulation (EC)1907/2006

On June 1st, 2007 Regulation (EC)1907/2006 of the European Parliament and Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) came into effect. Bronkhorst High-Tech B.V. aims to ensure a high level of protection of human health and of the environment.

As manufacturer of Low Flow Fluidics Handling Technology, we are a “downstream user” in the sense of Regulation (EC)1907/2006. According the REACH regulation, these products are defined as articles. The REACH regulation requires producers of articles to register regulated substances in their articles if a total of more than one metric ton of a particular substance is contained per year and per producer and the substance is expected to be released under normal and reasonably predictable usage conditions. Bronkhorst High-Tech B.V. products are not designed or anticipated to intentionally release regulated substance under normal use conditions and are therefore exempted from the registration requirements. None of the products we supply require registration as defined by the Regulation.

As a supplier of articles, Bronkhorst High-Tech B.V. is also obligated to inform our customers of Substances of Very High Concern (SVHC) included in the Candidate List contained within our products at a concentration exceeding the defined threshold limits. As regards registering and maintaining conformity of the raw materials used, we are in constant contact with our suppliers and distribution partners, who assure us that they comply with all their REACH obligations in this regard.

The identification of Substance of Very High Concern (SVHC) and their inclusion in the Candidate List is an ongoing process, Bronkhorst High-Tech B.V. continuously reviews the Candidate List to ensure REACH conformity.
